AI Disclosure Appendix

Used ChatGPT (OpenAI)

How I Used AI

I used AI mainly for debugging and small improvements.

AI helped me:

- Fix FastAPI input and JSON response errors.

- Correct payload format issues.

- Debug Git push and authentication problems.

- Improve the monitoring script in Phase D.

- Add periodic checking in the monitoring script.

Where AI Help Was Use

- run_production.py

- monitor.py

- Git troubleshooting steps
